"Too Proud to Beg" is the attraction at the Lyceum this week. Good audiences have greeted the play, which will run the week.

At the Grand Wednesday night the newsboys and carriers were guests of Manager Cox of that popular playhouse. That the boys were delighted goes without saying. Starting this evening, when the bill changes for the balance of the current week, five entirely different acts will be offered in the vaudeville portion of the bill than those presented the first half of the week. In addition to the vaudeville change the Scott company will present a new dramatic bill, offering for the first time locally in several seasons the well-known story of "Thelma." A special holiday matines will be given on New Year's day at 230, when every lady attending will receive a New Year's gift, with the compliments of the management of the cempany and the thester.

The bill at the Lyric this week is ex-ceedingly well belanced. The pictures are all clean and high-toned and the cornedy feature has not been overlooked. The films entitled "Athletes Boxing Match," "The Blusterer" and the "Bill Poster's Chase" nover fall to bring down the louise.

A popular song, entitled "Some Day Will Be Too Late," written by Lee A. Black-ner and Ben Ferris, Ir., of Salt Lake City, is being nung, with complete illus-trations, at the Isis theater this week.

The Rooney Roys' Concert company will give a concert at the First Congre-gational church this afternoon at 3 6'clock and this evening at 8 o'clock.

a solut meeting of representatives of the Commercial club, the Real Estate association and the Manufacturers and Merchants association tast Monday, it was decided that the Manufacturers and Merchants association and the Real Estate association would continue their present quarters and maintain the exhibit.

On the part of the Manufacturers and Merchants association, however, this determination means that the association will simply retain office from in its present location, and the real decision as to the future standing of the association will be reached at the coming meeting. It has been feit by many of the members that the association could best serve the interests of the business concerns of the city and state by devoting its attention entirely to the manufacturers, and that the Commercial club ind absorbed the duties of the association so far as they related to the interests of the merchants. Inasmuch as it was thought unwise to effect a consolidation of the entire association with the Commercial club, it has been practically decided to form a manufacturers association and limit the functions of the association to the interests of concerns of that nature.
